INDIAN AFFAIRS.

The policy to be pursued by these colonies

towards the native tribes is one that from

this out will require the most serious atten-

tion on the part of the Government and the

Legislature; for a fixed line of policy we must

have if we ever expect to attain any satisfac-

tory results from our dealings with them

The slipshod manner in which Indian matters

have up to this been managed must give way

to system. The influx of the white race must henceforward be continually increasing.

Danger of frequent collision between the new

comers and the natives must exist if timely

measures be not taken to prevent it. Even

where the strength of the whites may happen

to be so great as to obviate that difficulty

there will at all events be the likelihood o

each race corrupting the other, should indis-

criminate intercourse be allowed to take

place. Apart from this, commor justice, not

to speak of the dictates of humanity, demand

that some effort should be made by us, the

intruding race, to raise those whom we are

displacing from their present degraded state

sands of individuals in that helpless state.

proper direction be given to their labors by a

GENERAL NEWS.

The steamer Caledonia, from New Westminster, arrived on Saturday night, and the to make. Enterprise early yesterday morning. They brought about fifty passengers, and considerable gold dust.

The Caledonia brought Barnard's Express from Cariboo with later and important news, full particulars of which are given in the folgreat expense this year in opening up their lowing letter from "Our Own Correspon-

"Plaint me as I am," said Cromwell, while sitting to young Lely, "If you leave out the defects and wrinkles I will not give you a stiver." The harsh features of the great protector were too indicative of his genius, his iron will, and his courage, to be lost; and the great man was too sensible to allow the rugged elements of an imposing presence to be marred or exchanged on the easel for the last week.

lofty wisdom, anxious care, and that watchful
jealousy of his country's honor, which had
raised Great Britain to the position of misress of the sens and arbiter of the world. Well might he be proud of them. As the Well might he be proud of them. As the block of granite from the quarry acquires no new strength from the chisel of the craftsman, the massive brow and thoughtful face of Cromwell could derive none from the pencil of the painter. But it was not vanity that dictated the rebuke; it was an inherent love of truth. He knew the imperfections of his face, and in his honesty he distained to conceal them.

It would be well if informants of the press of Victoria would in imparting news from Cariboo imitate such a man, and state faces.

There are many whose letters in the Colonist and Chronicle must astonish Victoriaus. They certainly astonish readers here. Mr. Cocker who has charge of it is occoming very popular. They are buying large quan-tities of gold, and seem to possess as well as merit the confidence of the whole mining community. Drafts on Victoria, San Fran-cisco, and London, are sold readily. Nearly a mile lower down the creek, got an excellent prospect of coarse gold. No doubt the claim will give a good account of itself. EDITOR BRITISH COLONIST. - SIR, - Having Entror British Colonist.—Sir.,—Having seen the "Never Sweat" mentioned in your issue of August 4th, I take the liberty of giving you a few facts concerning the said claim. I assure you Mr. Editor the "Never Sweat" is not likely to fizzle yet, instead of singing "Thou art gone from my gaze," it should be "Ever of thee I'm fondly dreaming." I will just state for the benefit of your informant (for he certainly is not posted on the lead of this claim) that it never looked better to its owners than at the present time, and as to changing Are paying very well. Cahill, and Chapman, left Williams Creek on a prospecting tour. They went to Antler Creek, where they constructed a raft, and thence proceeded by water to Bear Liver.

After proceeding about 160 miles down this river, they saw a little white flag, or flag of distress, on the bank, on each side of the river. They landed on one side, but found subjug, and then crossed the river, and some same and strong they found a dead the same of river. WEAK STOMACH, OPPRESSION AFTER EATING, S &c.—Indigestion takes innumerable shapes. Sometimes the stomach becomes so sensitive that it rejects even the simplest food; and in other instances, digestion is so painful that the patient is afraid to indulge the appetite. It is in cases like these that the tonic properties of BRISTOL'S SUGAR COATED PILLS are most strikingly manifested. Mrs. Margaret McElroy, of Troy, New York, testifies that, for five years, she was unable to digest solid food-taking nothing but jellies, rice, and arrow-root-and even these caused her so much uneasiness, that she was obliged to limit quantity to a couple of ounces three times a. She was terribly emaciated, and, to use her own words, "hardly cared to live." After having tried more than twenty modes of treatment, she, at length, commenced taking BRISTOL'S SUGAR-COATED PILLS, and she states the result as foliows: "I am thank ful to say that I am quite

covered my flesh, and feel no pain. All this I carnestly recommend them to all who suffer from weak stomach. They are sure." They are put up in gluss vials, and will keep in any climate. All respectable druggists have them for sale.
